Privilege Management

Provide students easy, convenient, credential-driven access to authorized services and events; and secure your campus with a unified, comprehensive security solution designed specifically for the education community.

## Attendance

Make attendance monitoring easy for faculty and provide a simple way for students to check in via their student IDs.

- Easy monitoring and minimized friction
- Integrations with existing campus technology
- Mobile or wall reader works with existing student ID credential
- Convenient web and mobile platform

## Security management

Enable a safe campus with complete, easy-to-manage security solutions custom designed for the educational community.

- Comprehensive campus system integrations
- Flexible schedule management with automated access level assignment
- Intelligent automated imports
- Smart override technology

## Door Access Control

Secure facilities with versatile door access solutions for existing building or new construction, providing control, flexibility, and efficiency to regulate building and door access.

## Video Surveillance

Enhance campus safety through a feature-packed video surveillance system that’s reliable, scalable, efficient, and effective.

## Student safety app

Extend your campus security team with your students’ smartphones. The LiveSafe mobile safety and risk mitigation tool allows your campus to share security and safety information.
