

Cashiering

Enable payments

Give your university the capability to accept any payment, any place, anytime.

Enable campus departments to process all types of payments with a one-step, one-stop transaction and easy back-office reconciliation.

Configures easily for quick-click payment processing

Seamlessly integrates with ERP systems

Simplifies end-of-day balancing and reconciliation

Mobile Payments for the iPad

Turn your iPad into a mobile cash register and accept electronic payments on-the-go at events all over campus.

Centralized platform for research and reporting on customer information

Reduces cost and effort related to PCI compliance with capabilities including Bluefin P2Pe

Supports hardware necessary to accept EMV, NFC, magnetic stripe, and keyed cards

Key features for students

- Expedited in-person payment experience
- Flexibility to use multiple tender types
- Fast updates to account balances

Provides web-based departmental deposit entry and receipting

Assists with cash-management activities like petty cash, check cashing, and vault management

Allows configurable campus payment stations anywhere on campus
