

CampusCash managed off-campus solutions

Extend student ID card cashless payments to off-campus merchants.

Your campus is an integral part of the local community. Lines where campus ends, and the community begins are becoming increasingly indistinguishable as students move between them countless times each day. Fortunately, the blurring of the lines has created opportunities to enhance services offered to students and integrate merchants with your campus.

Enable purchases both on- & off-campus

Heighten value of single card/mobile credential program

Extend & enhance service offerings to students

Increase incremental deposits & revenue

Strengthen "town & gown" relationships

Grow your off-campus spend with customized marketing services

Provide a secure, cashless, and convenient way for your students to make purchases off campus with university-approved merchants.

“The biggest factor in why we decided to implement an off-campus solution was the fact that [it] could provide us with a ‘packaged solution.’ Transact handles all aspects of merchant services, from recruitment to customer service to settlement. In addition, they design and implement a comprehensive marketing and communication plan—all within a short time period.”

John Meriano, Director of Administrative Services
Quinnipiac University

Merchant settlement

The key to efficient operation of any off-campus merchant program is a secure and effective settlement process. ACH-based, automated secure funds settlement is completed by Transact on a daily basis—eliminating the need for your institution to manually calculate merchant payments and issue reimbursements.

Automated royalty and fee payments are automatically calculated, and your campus receives these royalties through a deposit on a monthly basis.

Merchant recruitment

To fuel the growth of discretionary deposits, as well as off-campus spending, leverage our extensive experience recruiting high-quality merchants based on student and institutional input. Our turn-key service takes the burden off your institution and recruits merchants on your behalf.

Transact completes the entire recruitment and acquisition process, from approaching the merchants to executing the appropriate paperwork.

Merchant support

The day-to-day support of merchant partners is also a crucial component of your merchant program. Outsourcing your merchant program to us enables you to focus on your core operations. Program management includes the terminal deployment and replacement process, as well as ongoing merchant support for technical difficulties, billing inquiries, or terminal repair questions.

Marketing support

Leverage our expertise to help you market your off-campus program. Direct mail, websites, collateral, email, and more—we’ll work with you to develop a plan that is just right for you.

Strategic partnerships

Leverage our partnerships with national brands for streamlined onboarding.
